Discover what's on the map...be an UNDERCOVER MAPPER

Did you know that map scale is funny?

Small means large and Large means small! How much **tiny** detail can you see, SMALL or LARGE?

The closer you get to the ground, the larger the scale!

**UNDERCOVER<sup>TM</sup>**  
**MAPPER**

Map Viewer

Investigation #3

**1** Go to the map. What do you see?  
What's the scale, LARGE or SMALL?

**2** What's the scale,  
LARGE or SMALL?

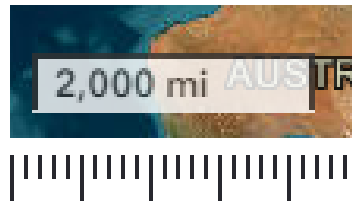

New York, NY, USA

**3**   Empire State Building

What's the scale,  
LARGE or SMALL?

**4** How many miles  
on the ground?

scale shows distance on  
earth's surface...like a  
string on the ground

**5**  What new details do you see?

Find address or place

**6** Explore other places at both large and small scale!  
Why does scale matter?

Remember: Use your tools, Pan (click and drag) and  
Zoom (+ and -) to explore and have fun!

Congratulations! You are an UNDERCOVER MAPPER<sup>TM</sup>
